

## DEGREASER

**S-410 Degreaser can be used in all soak solutions.** It helps prepare the skin to accept tanning, and also helps relax the skin for easier shaving. It helps soften stiff skins such as African and grease burned skins. It degreases by removing natural fats and oils. It also helps to clean the skin of dirt, blood, and smoke stains. It is compatible with all hide tans, salt and pickle baths, and degreasing baths. Does not cause slippage.

### **Directions:**

**SKIN PREP:** use one ounce of degreaser per 5 gallons of water and 2 1/2 pounds of salt in either a re-hydration bath, pickle solution, or tanning solution. It helps with quicker penetration.

**RELAXOR:** use 1 ounce degreaser per 5 gallons of water and 2 1/2 pounds of salt. leave in solution until the skin is supple.

**DEGREASER:** for greasier skins such as Bear, Beaver, and Raccoon - use 1 ounce of degreaser per each gallon of water and 1/2 pounds of salt per gallon. For all other skins use one ounce of degreaser per each 5 gallons of water and 2 1/2 pounds of salt.
